PROFESSIONAL SUMMARY

Junior Data Analyst with a technical university degree and extensive experience in logistics, warehouse management, and process coordination. Successfully completed an 800-hour Data Analytics & Engineering program with hands-on work in SQL/BigQuery, Python, Tableau, statistics, and machine learning. Combines analytical thinking with operational process understanding to turn data into clear KPIs, visualizations, and actionable recommendations.

CORE COMPETENCIES

Analysis & Methods: Data cleaning and validation, EDA, KPI analysis, reporting, hypothesis testing, A/B testing, linear regression, business insights

Tools: SQL/Google BigQuery (JOINS, CTEs, window functions, aggregations), Python (pandas, NumPy, Matplotlib, Seaborn, scikit-learn), Tableau, Excel (PivotTables), Google Sheets, Jupyter, Git/GitHub

Additional Knowledge: Data modeling, ETL and data warehousing, model validation, LLMs, RAG, API integration, and AI agents

Industry Knowledge: E-commerce, digital marketing, logistics, inventory management, and process optimization

PROFESSIONAL TRAINING

02/2026–07/2026 | Data Analytics & Engineering - Deutsche Tech Akademie (Lex Labs UG)

- Successfully completed on 31 July 2026 · 800 instructional hours
- Python, SQL and databases, statistics, data visualization, machine learning, data engineering, and Generative AI
- Practical capstone project, presentation, and accompanying job coaching

SELECTED PROJECTS

ShopSphere - E-commerce Business Analysis | SQL · BigQuery · Tableau · Python

- Analyzed 12,274 orders (2022–2024) generating USD 3.47M in net revenue; performed data cleaning, KPI analysis, and built interactive dashboards
- Ran an A/B test covering 7,355 orders, segmented new and returning customers, and developed actionable recommendations

Portfolio: [GitHub repository](#) · [Tableau dashboard](#)

Other course projects: StyleMart (discount and rating analysis), Hotel Bookings (customer retention), and revenue forecasting with Python/Linear Regression.

PROFESSIONAL EXPERIENCE

10/2023–02/2026 | **Integration into the German labor market and professional career transition** - *Munich*

- Relocated to Munich, obtained a German B1 certificate, and continued developing German language skills in a professional context
- Pursued a targeted career transition into Data Analytics, including preparation for and application to the Data Analytics & Engineering program (education voucher / Bildungsgutschein)

06/2023–10/2023 | **Self-employed delivery and logistics service provider** - *Own sole proprietorship, Kyiv*

- Organized product deliveries for a supermarket and coordinated and planned delivery routes
- Responsible for inventory and cash reconciliation, reliable handovers, and documentation

01/2014–05/2022 | **Warehouse Manager (Warehouse Management & Logistics)** - *Tekhnomriya LLC, Kharkiv*

- Managed the receiving, storage, and dispatch of several hundred product SKUs
- Performed inventory control, stock counts, delivery documentation, and Excel-based analysis
- Coordinated logistics operations, shipping processes, and delivery routes

10/2013–12/2013 | **Sales and merchandise operations assistant** - *Business Club, Kharkiv*

- Supported inventory movements, order processing, and operational sales activities

07/2007–09/2013 | **Engineer / Technical Procurement & Logistics Specialist** - *Ukrغازavtomatika LLC, Kharkiv*

- Started as an engineer in automated production control; moved into technical procurement in June 2008
- Procured and transferred goods and operating materials to the warehouse and supported transport coordination and documentation

EDUCATION

09/2023–12/2024 | Master of Psychology - H. S. Skovoroda National Pedagogical University of Kharkiv, Ukraine

09/2002–06/2007 | Engineer in Automated Production Control Systems - Kharkiv National University of Radio Electronics, Ukraine

Field of study: Information Technologies for Design; prior Bachelor's degree in Computer Science · ZAB qualification assessment available.

CERTIFICATES

08/2023 | Google Digital Marketing & E-Commerce Professional Certificate - Google / Coursera · Credly verification
